

E-Series Blades: Enhanced Manufacturing, Same Exceptional Quality

Exciting Update! Our new robotic coating system for SHAVIV E-Series blades (E100P, E110P, E111P, E200P, E300P) represents a leap forward in precision manufacturing. This upgrade introduces a subtle 2-3 mm visual change while maintaining the outstanding performance you've trusted. Same great blades, smarter production!

Blade Number 1:

The current coated E100P blade

Blade Number 2:

The same E100P blade after Robotic coating

TiN COATED (p)

Titanium Nitride coating significantly increases HSS blade life.
